A DECADE OF DISCIPLINE

Ten years of relentless refinement and technical discipline have forged an unbreakable circle of creative trust. This is not a trend; it is a decade of work.

WHY WE DO WHAT WE DO

We do this because the world doesn't need more background noise. It needs a catalyst.

Music is the spear that pokes holes in the Reality, uncovering hidden truths buried beneath the surface. We create because we have an internal clock that refuses to stop, a drive that refuses to settle, and a story that demands to be recorded.

Asphodel Overhaul is the realization of that drive—a declaration that you can build an empire out of pure intent and raw grit. Whether you're a listener or a collaborator, I'm here to push the boundaries of modern harmony into the unknown.

WHO WE ARE

Asphodel Overhaul is an independent alternative music project engineered to disrupt the status quo. We don't just write songs; we build sonic architecture. Blending aggressive, gritty instrumentation with hyper-focused digital precision, our sound is a calculated strike against standard, paint-by-numbers music.

We operate on our own timeline, under our own protocols, and with a small, unbreakable circle of absolute trust. This is a ten-year legacy in the making—built from the ground up, entirely self-contained, and completely independent.

WHAT WE STAND FOR /

UNCOMPROMISING INDEPENDENCE /

We bought the domain, we own the masters, and we dictate the terms. We stand for complete artistic control in a world that tries to dilute original vision.

THE BEAUTY IN THE GRIT /

Inspired by the raw, high-contrast texture of classic manga and the striking impact of hyper-pop aesthetics, we find harmony where the beautiful and the brutal collide.

RELENTLESS EVOLUTION /

True to our name, an overhaul is a complete tearing down and rebuilding. We stand for breaking past limitations, optimizing our craft, and pushing boundaries.

OVERHAUL: A COMPLETE TEARING DOWN AND REBUILDING. /
